

Vancouver, September 1<sup>st</sup>, 2010

For many years Educacentre College successfully ran “French for Parents Workshops” to parents whose children were enrolled in a French immersion Program.

This fall, Educacentre College is launching a new program called **French as a Second Language**, available both as an online course and at our Vancouver campus.

This program will offer a dynamic learning experience to anyone who wants to get a better grasp of French, while continuing to provide useful tools for parents whose children are studying French.

Beginner 1, Beginner 2, Beginner 3 and Intermediate 1 levels will be offered this October. Placement tests will be available before the start of the program.
